FINCH DIED SILENT AS TO HIS SLAYER.

MYSTERIOUS MURDER TRIAL BEFORE JUDGE BENNETT.

Frank Baldwin, the Defendant Sticks to His Story that Strangere Cut the Dead Man and Others Back Him Up—No Jury Has Yet Been Secured.

Wrapped in the deepest mystery is the crime for which Frank Baldwin is on trial before Judge Bennett. The probe of the law has heretofore brought but little to light in regard to the way Lorenzo F. Finch met his death. Finch died from the wounds he received with the seal of secrecy on his lips. The murder differed from those of the past few years. It was not the murder of a brutish nature such as that of Bitson, the low-minded Bohemian; neither was it a crime committed for the gain that would follow.

A fit of rage, evidently, a half dozen knife thrusts and then death, is the story.

The crime was committed at Mayflower park on June 21, '93. The Crescent band were giving a dance that night and Finch, Mr. and Mrs. Baldwin and Miss Olive Anderson were among the merry makers. Between dances someone suggested that the quartette go out and get a glass of beer. Finch's death wound was but five minutes ahead of him yet he did not know it. Stepping out of the brightly lighted dance hall into the glimmering light of a half dozen torches, the party walked around the end of the dancing pavilion to the bar room. Mrs. Baldwin and Miss Anderson stood in the shadow of the building while Baldwin stepped off to one side in the woods and Finch entered the bar room for the beer.

Bloody Fight in the Dark.

Two minutes later all was over, and Finch with half a dozen knife wounds, allowing his life to ebb, was lying in the grass back of the hall. Baldwin's story is all there is to be had. He says that when he was absent he heard some one speak to his wife and returned to her as soon as possible. Several men were standing near her, whom she said had spoken to her and Miss Anderson asking "if there was anything they could do for them." She replied that they had better move on or something might be done to them. At this juncture Baldwin came and told them in substance to leave his wife alone. His answer, he claims was a blow from one of the men and in an instant he and the strangers were in a free-for-all. Baldwin was getting the worst of the fray when one of the strangers called for a knife. At this, Baldwin took to his heels and at the same moment Finch came out with the four glasses of beer. He took in the fracas at a glance and setting down the beer ran into the fight. His coming, if the story of the defense is true, must have been feared, as he had a reputation as an expert boxer, for the knife was used on him almost before he had gotten into the fight.

Cut and No One Knew It.

The first intimation that the bystanders had of the bloody deed was when Finch rushed into the bar-room and sank into a chair.

"I have been stabbed!" he exclaimed. He was holding his hands to his abdomen and examination showed that he spoke the truth. Blood was flowing over his clothing and as soon as possible he was brought to the city in a buggy and taken to the hospital by the fire police. On the way there he was asked who cut him but would not answer. By his head in the patrol wagon sat Orville Williams.

"Orville, you are my friend; am I going to die?" Finch asked him.

"No," replied Williams. "Who cut you?"

There was no definite reply and when the police and relations asked him the same question he was silent. Within a few days death came to him and the coroners' inquest followed. Baldwin, his wife and Miss Anderson stuck to their story. They did not know who the strangers were and could not describe them except that one wore light clothes. The inquest developed nothing and the jury returned a verdict that the dead man died at the hands of some person or persons to them unknown. Here the matter rested until the grand jury met in the fall.

Baldwin Was Indicted.

What was learned by that mysterious tribunal is, of course, unknown to the public, but a true bill was found charging Baldwin with the murder.

"I had expected it," was his simple declaration when Sheriff Bear arrested him. Since then he has been in jail. E. M. Hyzer is his attorney and District Attorney Wheeler is the prosecutor. What ammunition the state has is not known, and accused can have no defense except his own story and that of Miss Anderson, as his wife cannot testify. All day yesterday they examined talesmen for a jury, and at noon the court called a recess until 2 o'clock this afternoon, and Sheriff Bear, armed with a special venire for seventy-five jurymen, scoured the country for more, the panel being exhausted. Eleven men were in the box then, but none had been formally accepted. That was the way matters stood when court opened at 2 o'clock and Sheriff Bear presented his list of names, and at 3 o'clock the jury was not yet secured.

EVANSVILLE, May 28.—A silver medal contest was held Thursday night the contestants being Nellie Purlington, Myrtle Crow, Blanche Brigham, Fannie Powles, Vera Phifer, Grace Bemis, Jennie Frantz and Alice Stevens. The hall was packed, the exercises interesting and the decision, awarding the medal to Miss Myrtle Crow, was highly satisfactory. The celebration July 4 has passed speculative grounds, and is now an assured fact. Plenty of money is raised and a very interesting program made out. We don't want to publish full particulars at present for fear that Janesville would steal some of our thunder. Conrad & Son have bought the bankrupt stock of R. SURPRISE AT EMERALD GROVE.

Friends of Mr. and Mrs. Ensign Ransom Bear Them in Mind.

EMERALD GROVE, May 29.—Last evening half a hundred of the friends and neighbors of Mr. and Mrs. Ensign Ransom very ruthlessly came in upon them and disturbed the quietude of their pleasant country home. The occasion was the tenth anniversary of their wedding day. They brought with them the heartiest wishes for another decade of years, also a substantial repast under which the tables were made to groan with their prodigious abundance. The thought of the friends who came was not only expressed by cordial greetings and best wishes but by their gifts as well. Mr. and Mrs. Ransom were presented with a beautifully upholstered easy chair and some fine linen for the dining table. The social freedom, the music of the evening, the wedding feast, all conspired to make the occasion enjoyable for everyone. A Fourth of July celebration is being discussed by many of our readers. How does it suit you? Thomas Barless left on the excursion Tuesday for a visit in South Dakota with his daughter, Mrs. B. P. Irish. TRIBUTE TO SAMUEL A. POND.

Resolutions of Respect Adopted by Wisconsin Lodge No. 14, I. O. O. F.

At a regular meeting of Wisconsin lodge I. O. O. F., these resolutions were adopted:
By the death of S. A. Pond this lodge loses one of its earliest and most respected brothers. As an Odd Fellow Brother Pond was earnest, watchful and courteous. His communications with his fellows in this and other lodges for forty-three years were frequent. While yielding he was commanding; his rulings while occupying positions important were respected, and now referred to as authorities and cited as guides for the future. We would not multiply words, but briefly say to the family and relatives of Brother Pond, "We with thee are mourners." R. A. RICHARDSON, A. DEWEY, VOLNEY ATWOOD, Committee on Resolutions.

SCHOOL FOR BLIND TO GET CITY WATER

JANESVILLE SYSTEM LIKELY TO BE CHANGED.

Stand Pipe to be Cut Off and and Direct Pressure Relied Upon—The Pumps to be Kept Running Night and Day If the Change is Made.

Water mains are to be extended to the school for the blind. Bids for laying the six inch main will be opened at Madison tomorrow by the state board of control. The state lays the pipe from a point on the regular city mains near the lower cotton factory, across Rock river and thence to the state building. An agreement has been ratified by the water company and state board, whereby the state lays the main the water company furnishing the state school water at a stipulated cost, meter measurements, also the water company agrees to furnish three good fire streams at the state building in case of fire. It is understood this extension is to be made without delay after the state awards the contract, which will probably be to-morrow. It is understood that several parties will put in bids for laying the pipe. The Gray Brothers of Whitewater have been looking over the specifications with the intention of bidding, and Mr. Maxcy has intimated his intention to bid on the work.

Direct Pressure Will Follow

The laying of this extension, together with the increasing demand for water will make some radical changes in the operation of the plant, and it is claimed the changes will be to the great advantage of water consumers. The principal change will be the closing of the stand pipe, giving direct pressure all the time. The consumption of water at the present time compels the use of the pumps all day and until late at night. Manager Maxcy, while in the city a few days ago, informed several parties that the company was considering the propriety of discontinuing the use of the stand pipe, and now that extra demand for water will soon be made from the state, it is claimed the idea will be carried out. The state will consume about ten thousand gallons of water a day.

NEW GRADE FOR RIVER STREET.

Old Elevation Was Too Low To Satisfy Property Owners.

The special meeting of the common council was very brief last evening, the only business considered being the reception of the petition to raise the grade of South River street, from Milwaukee to Pleasant, the new grade to conform more to the grade of intersecting streets, the adoption of the new profile and grade of the same street, and ordering the same placed on the grade book. Bidders on the proposed grade and paving of that street will be governed by the new grade.

WANTED—ANOTHER RUSK

People out west and in Illinois are crying out for another "Jerry" Rusk. During the disturbances attending the labor strikes in 1887, Governor Rusk rose to the emergency with a promptness and heroism which called out the plaudits of the country. When the crisis came in Milwaukee and the mob seemed bent on destroying life and property he brought the militia quickly to the scene, and gave orders to fire if the lawlessness took any dangerous turn. His resolute stand accomplished its purpose, for though the strike continued and the community suffered thereby, the policy of destruction decided on by the labor leaders was checked and a fair degree of order was preserved. Says the St. Louis Globe-Democrat in referring to the contrast:

Rusk's courageous course contrasted strongly with the vacillating and pusillanimous conduct of some of the other governors of the day, and it shines out in brilliant luster in comparison with the blindness and cowardice shown by Altgeld and the mischievous demagoguery and the shameless disregard for law displayed by Waite. Altgeld cringes and truckles to the riotous mob, and refuses to call out the militia to aid the police in defending life and property, and Waite openly takes the side of a band of miscreants who commit murder in cold blood.

When Governor Rusk let the Wisconsin mob know that it would be fired on if it attempted to carry out its purpose of bloodshed and rapine, he did it the highest service which could be rendered, for if it were allowed to carry out its programme it would have aroused the vengeance of the community and its leaders would have had their career cut short by the bullet or the halter. The same sort of a policy in Illinois, Colorado and the other afflicted states would promptly suppress all this lawlessness and end the reign of terror. Such a course would be in the interest of the cause of labor rather than antagonistic thereto, for no worthy aspiration or enterprise is ever aided by a policy of disorder and destruction.

Here is just a sample of "honest" tariff revision. Under the Wilson bill as it stands Tennessee marble will be protected to the extent of fifty cents a cubic foot in block. New England granite, if polished, will have twenty per cent protection, but a unpolished gets nothing. It makes a difference which side of Mason and Dixon's line stone is quarried.

Free wool and protected sugar is about the net result of what the democracy will do for free trade. It is the south that is being cared for, and the man who wants to see tariff regulations made to fit the country as a whole must join the republican party.

It isn't strictly just to hold the democratic party responsible for the prevailing strikes, but it is a significant fact, nevertheless, that the strikers get all their comfort and assistance from democratic sources.

Republicans are not to blame for the delay in the case of the tariff bill. It has been mainly due to the difficulty the democratic senators have had in patching the measure to suit their different views and interests.

A Jerry Rusk in the Illinois or Colorado executive chair would meet a very urgent want just now. The Altgelds and the Waites are largely responsible for the destruction of life and property by the strikers.

The fiscal year will end five weeks hence, but there is a strong probability that another bond sale will have

be made before that time. The treasury gold fund is down below the \$80,000,000 line.

People who are enduring the poor drainage of the city for economy's sake should remember that it is cheaper to build sewers than cemeteries.

AS SEEN BY JERE MURPHY.

"General" Kelly would be in less danger of wasting his words if he would arrange to talk into a balloon instead of from one.

Some of Senator Vilas' friends dispose of The Chicago Times' sensation with the exhaustive explanation that there is nothing new in it.

Its wealth of notorious scandal and utter inability to act leads us to infer that perhaps the Fifty-third congress is preparing to go on the stage.

Pinkerton and his professional man-hunters will cordially approve Governor Altgeld's notion that a man who wants his property protected against mobs of rioters should employ a private militia of his own.

On the question of free trade in lead ore Senator Hill, Mills and Irby were administration democrats and all the other democratic senators were what The Milwaukee Journal designates as traitors.

It is mighty peculiar that Chicago should have expended \$20,000,000 or so for the glory of the World's fair to allow Old Man Higginbotham to disgrace Chicago and the nation by compelling France to go into court to collect a just claim for \$70,000.—Madison Journal.

Sold Out, Almost.

We made the best hit of our lives last Saturday, when we made the comparison of French satines. When the day opened we had several hundred yards on hand, and supposed this enough to last all day, but before noon we had to telephone to our Beloit store for more. They sent us over 500 yards, and when the day's business was over we had but little on hand. By placing ours and the other fellow's prices together, no words were needed. It was easy to see the difference. We are fast growing and may, ere long, develop into a full sized man. The people know where they can get the best dry goods for the least money. Watch us tomorrow evening. We have a surprise that will push us farther ahead.

The place was opened soon after the great fire. For a number of years it was operated by the firm of Burcky & Milan. Major James W. Brockway, one of the members of the insolvent firm, served a term as recorder of Cook county some years ago. E. B. M'Key, formerly of this city, was the junior partner.

Will the major please use his official authority and abate the nuisance and receive the thanks of many citizens? POUND.

IT would surprise you to see what handsome volumes the World's fair views make when put in book form by the Gazette bindery.

THE first time in the history of Janesville that \$8.50 plush lounges, solid oak or walnut frames have been sold for \$5.45. Frank D. Kimball.

THERE is but one way to keep sets of World's Fair views in shape. That is by putting them in book form. The Gazette bindery offers many styles and prices, but only one grade of workmanship—the best.

H. A. MCCHESENEY, A. M. M. D., surgeon-in-chief of the McChesney Sanitarium and Private Hospital in Janesville, will visit the town of Clinton on Tuesday, June 5. He will stop at the Taylor house and can be consulted between the hours of 9:00 a. m. and 5:00 p. m. Examination and consultation absolutely free. The people of Clinton and surrounding country should take advantage of the doctor's visit to their town.

CRACK SHOTS HERE AND BIRDS SUFFER.

CLAY PIGEONS SHATTERED AT THE TOURNAMENT.

Richard Merrill of Milwaukee, Ed. Bingham of Chicago, and Other Experts on the Grounds—There Will Be Lively Shooting at the Gun Club Grounds.

Guns popped and clay birds suffered at the grounds of the Janesville Shooting club to-day. There were crack shots in plenty. When Ed. Bingham, of Chicago, and Richard Merrill, of Milwaukee, face the traps, something has to break. To use the expression of Referee Charles I. Sloan, however, "there are some of the Janesville men who are not behind them one inch at that."

There was some difficulty in working the electric traps, but City Electrician and Superintendent of Fire Alarm Telegraph System Henry Kline soon fixed that, and in the afternoon they worked all right. Among the shooters from away were Ed. Bingham, of Chicago; Richard Merrill, of Milwaukee; Messrs. Land, Spike and Anderson, of Waukesha; Vance, of Capron, Ill., and Stoltz, Mayer, Fuller and Mayers, of Madison. Janesville was represented by O. Sutherland, H. G. Carter, G. W. Wise, F. C. Burpee, H. H. McKinney, C. L. Valentine, G. H. Bates and several others. Charles I. Sloan was referee and Morgan Wise pulled the traps. Ira Bingham, of Koshkonong, was one of the spectators. Today's program included twelve matches and the same number will be shot tomorrow.

PRAISE THE SHAW
 FOR MANY MERITS.

FAMOUS PIANISTS PRAISE THE
 GAZETTE PRIZE.

Everybody Who Has Examined the
 Instrument at S. C. Burnham &
 Co's Says the Things Said in Its
 Favor Were Justified—Conditions
 of the Contest.

What is thought of the Shaw piano
 by pianists, vocalists and teachers.
 This is not hard to find out.

When The Gazette chose an instru-
 ment it picked out the best to be had.
 The girl who wins this instrument
 may well rejoice. Here are a few
 statements published in St. Paul
 papers by those who have used the
 Shaw:

OSCAR L. LIENAU, tenor singer and
 teacher of the voice writes:
 ST. PAUL, MINN., AUG. 2, 1892. GENTLEMEN:
 I am extremely pleased with the Shaw Piano,
 which I purchased of you. I have used it for
 some months and consider it a superior instru-
 ment. Its clear full tone and elastic touch is a
 delight not only to myself, but to my many
 friends, its sweet singing quality being espe-
 cially noticeable, and I shall be pleased to recom-
 mend it to my pupils, etc. I am, yours respect-
 fully,
 OSCAR L. LIENAU.

Frederick Leavitt, the expert piano

ST. PAUL, MINN., MAY 1, 1892. GENTLEMEN:
 As compared with other first class in-
 struments, the Shaw piano has the charming
 characteristics of each—all in one. Not a break
 in the scale. No rattling in the action. Never
 harsh nor metallic in tone. Stays in tune. Such
 is my admiration for the piano that I would not
 trade it away for any upright made. My own
 Shaw has not required any attention during
 the past year and is in almost perfect tune
 now. Yours respectfully,
 FRED. LEAVITT.

Professor William Manner, organ-
 ist at the Cathedral and leader of the
 German Mannerchoir Singing society
 says:

ST. PAUL, MINN., MAY 6, 1892. I admire the
 Shaw Piano very much. Its construction is
 most excellent, the tone is round, rich and mel-
 low, and altogether I consider them one of the
 very best pianos made today in this country. I
 can cheerfully recommend them. Respectfully
 yours,
 W. MANNER.

Those who wish to learn for them-
 selves the quality of piano offered by
 the Gazette are urged to visit S. C.
 Burnham & Co's store. Several
 patterns of the Shaw are
 there shown. These instruments
 rank in the markets of the country
 just as Chickering, Steinways and
 Knabes, the four occupying first place.
 Everybody who has seen the Ga-
 zette piano is enthusiastic in its
 praise. It has a pure ringing tone,
 and its action is very fine. These
 qualities are what would be expected
 of a Shaw piano and The Gazette
 made no mistake in choosing that in-
 strument.

THE NEW OFFICE BOY.

He Was Scientifically Lazy, and It Ran
 in the Family.

"Doesn't that new office boy of ours
 seem to be rather lazier than usual?"
 inquired Judge Crabtree.

"He's the laziest boy we ever had,"
 answered his partner. "I caught him
 this morning setting his lips right and
 then putting mucilage on them so
 that he could whistle 'After the Ball'
 without the intolerable muscular ex-
 ertion of holding the proper pucker."

"Well, I hope we shan't have to re-
 sort to artificial respiration to keep
 him from dying on our hands as we
 had to with the last one," returned
 the judge. "By the way, what's this
 boy's name?"

"Tommy."

"But his last name?"

"Cregow."

"Oh, I see—it runs in the family."

knew a man named Cregow when I
 first came to the city who was un-
 doubtedly Tommy's father. This man
 Cregow had to be carried on a
 stretcher when he went to the
 circus. He used to show the greatest
 ingenuity in avoiding exertion of any
 man I ever knew. For instance, he
 was an inveterate smoker, but, of
 course, with his disposition, his pipe
 went out frequently. The labor of
 scratching matches to relight it was
 simply dragging him down, and he
 saw it. So he moved into a house
 where the elevated road ran close to
 the second-story windows, and there
 he used to sit near one of them all
 day long, smoking and resting. When
 he found his pipe out he would simply
 reach out of the window with a match
 and let a passing train rub against it,
 and there he was. Ingenious man.
 Might have made his mark in the
 world if he hadn't been so lazy. I'll
 ask Tommy to-night, when he un-
 gumps his mouth, how his father is
 getting along."

Savings Bank Episode.

An old woman of undeniable Celtic
 origin entered a downtown savings
 bank the other day and walked up to
 the desk.

"Do you want to draw or deposit?"
 asked the gentlemanly clerk.

"Naw, I doant. Oi wants to put
 some in," was the reply.

The clerk pushed up the book for
 her signature, and, indicating the
 place, said:

"Sign on this line, please."

"Above it or below it?"

"Just above it."

"Me whole name?"

"Yes."

"Before Oi was married?"

"No, just as it is now."

"Oh, go long! I can't write."—

A FAMOUS RESORT

Hot Springs, Garland
 county, Arkansas, has
 been a resort for invalids
 since the first cabin was
 built there in 1809. Leg-
 end identifies these
 springs with the "Foun-
 tain of Youth" of Ponce
 de Leon. The town and
 springs are on a reserve
 of four sections, set
 aside by congress in 1832.

There are 71 springs
 in number with a total
 discharge of 335 gallons
 per minute. The well
 known efficacy of the
 water in the treatment
 of chronic cases of the
 skin, joints, and mucous
 membranes is due with-
 out doubt to their tem-
 perature and not to their
 mineral constituents. The
 waters are no doubt ben-
 eficial in the cases of
 neuralgia and rheuma-
 tism, but the great rem-

 produce more favorable

A FUNNY SHOE STORE.

Illustrating the Old Jingle, "One Shoe Off and One Shoe On."

A company of idlers on a hotel piazza were telling such yarns as are commonly spun in such places, when one of them offered to wager that he had done something as a boy in Tennessee that no other member of the party had ever done or heard of.

"What was it, colonel?" asked one of the crew.

"I wore out my first pair of shoes without ever having them both on at once."

"Explain."

"Well, you see, it was this way. The shoemaker was slow and I was in a hurry. A boy who has never had a pair of shoes finds it hard to wait. Come Saturday night the man had one of them done, but told me I should have to wait a week for the other."

"Well, give me that one anyhow," said I, and I carried it home. I wore it all that week, and all the next, for the fellow didn't keep his word any more than shoemakers generally do; and by the time the second one was done I was in need of repairing."

"And so the thing went on. That shoemaker was so slow and the leather was so poor and I ran about so much that somehow I never once had both shoes on together, and by and by they were gone entirely."

TAKEN BY LIGHTNING.

A Portrait Taken on a Window-Pane by a Dazzling Flash.

"Did you ever hear of a photograph being taken by a flash of lightning?" inquired Samuel L. Goodnow, of Charleston, S. C., of the newspaper man.

"While traveling through the western part of the state about a year ago I came across a remarkable phenomenon at a farm house where I passed the night. On a pane of glass in the upper sash of one of the windows was a distinct and what was said to be an accurate likeness of a former master of the house, who had been dead a number of years. The portrait presented the appearance of a photograph negative. The people told me that a few years before his death the man, while standing by the window during a severe thunder-storm, was stunned by a sudden flash of lightning and the theory had always been that his features were photographed on the window-pane at that time. Those who were acquainted with the man before his death told me the picture was an exact likeness of him."

Catching Monkeys.

Most of the monkeys that travel with shows and organ-grinders come from the isthmus of Panama. These animals are captured by the natives in rather a curious way. They take a cocoon and cut a hole in it large enough to admit a monkey's paw. A string is then attached to the nut. The monkey is a very inquisitive little animal, and when he sees one of these nuts he inserts his paw through the hole to find out what is inside. When the paw is closed it cannot be withdrawn, and as the monkey has not seized enough to open his paw, the nut is dragged by the string, and the monkey with it, to within reach of the captors, who throw a net over the monkey and in that way secure him.

The Yellow Glow of the Horizon.

Pointe on the sky by the setting sun, is beautiful. Not so the yellow glow of a face tinged with bile. And oh! the unspeakable discomfort that bile in the wrong place produces. Twinges in the right side and under the right shoulder blade, nausea, vertigo, sick headache, constipation, faulty digestion. Not in an instant can the symptoms of biliousness be dispelled, but persistence in the use of Hostetter's Stomach Bitters will eradicate them, restore digestion and regularity of the bowels, and counteracts tendencies to more serious complaints, which an interruption of these functions begets. Rheumatism, inactivity of the kidneys and bladder, neuralgia, and inability to sleep, are also remedied by this preventative and restorative of nerve force and tranquility. As an antidote to the poison of malaria, it is unfailing and prompt. A wine-glassful three times a day.

CURES OTHERS.

To build up both solid flesh and strength after grip, pneumonia, fevers and other prostrating diseases, there is nothing so equal as Dr. Pierce's Golden Medical Discovery.

PROSTRATION FOLLOWING GRIP.

Mrs. REUBEN GARRETT, King George C. H., Va., writes: "I was taken with grip which finally resulted in pneumonia. I was prostrated for three months. Had a terrible cough and was emaciated and very weak. Was fast 'drifting into 'quack consumption.' The doctor gave me medicines all the time. I grew weaker. He advised cod liver oil emulsion. I took two bottles of it without any relief. I had pain in my left shoulder and back. I wrote you, and you prescribed your 'Golden Medical Discovery.' I took only one bottle before I felt better. After two bottles I could sit up, and felt I had been saved from the grave. I increased rapidly in flesh and strength."

Catching Monkeys.

Most of the monkeys that travel with shows and organ-grinders come from the isthmus of Panama. These animals are captured by the natives in rather a curious way. They take a cocoon and cut a hole in it large enough to admit a monkey's paw. A string is then attached to the nut. The monkey is a very inquisitive little animal, and when he sees one of these nuts he inserts his paw through the hole to find out what is inside. When the paw is closed it cannot be withdrawn, and as the monkey has not seized enough to open his paw, the nut is dragged by the string, and the monkey with it, to within reach of the captors, who throw a net over the monkey and in that way secure him.

By order of the common council.

GEO. H. BATES, City Clerk.

Dated Janesville, Wis., May 25, 1894.

SPECIFICATIONS.

Specifications for grading, curbing and paving that portion of South River street in the city of Janesville, between the southerly line of West Milwaukee street and the northerly line of Pleasant street.

GRADING.

Said street shall be graded so as to bring its surface at a uniform depth of nine (9) inches below the established grade of the same; and in doing said grading the earth is to be scooped off to the required depth so as not to loosen the soil below. Also in all places in said street where trenching has been done for water, gas or sewer pipes or connections of any kind, such places shall be made firm and secure against unequal settling.

If any filling is done in bringing said street to this grade it must be done with sand or gravel free from all perishable materials. After the surface has been shaped to conform to the pavement above, it shall be thoroughly rolled or tamped to make it secure against any settling, which having been done a ballasting of at least four inches of clean sand or fine gravel shall be spread in such a manner that the sub-grade of said street shall be uniformly against settling; which having been done a ballasting of two (2) inches of clean sand or fine gravel shall be spread in such a manner that the sub-grade of said street shall be uniformly against settling. The gutters at a point two feet out from the center of the street shall be graded so as to form a segment of a circle, having a radius shall be three hundred feet, and the grade of said street, the gutters to be placed at such grade and depth as the city engineer shall direct. The gutters at a point two feet out from the center of the street shall be three inches lower than at the curbing.

CURBING.

The curbstone is to be of good, durable, Waukesha limestone, free from seams, cracks or other defects. Each stone shall be not less than three feet long, twenty four inches wide, and four inches thick. The top of said curbstone is to be dressed to a true line and the face to a depth of ten inches; and the ends of each stone to a depth of fifteen inches in width at their backs. Said stones are to be firmly set on their edges to conform to the alignment and grade given by the above mentioned committee and are to be laid in close contact with each other and to break joints through their ends to be straight and their ends sawed off square, so as to form close joints, and prevent a smooth contact between the curbstone and the pavement.

Provided, however, that any curbing now upon said street, that shall in the judgment of said committee substantially comply with the above requirements, and be in good condition, may be reset, or be reset, if the alignment of the street shall so require.

FLOORING.

The surface of said street, having been brought to conform to the sub-grade of the same and having a uniform depth of at least four inches of good clean sand or fine gravel, well and thoroughly tamped; there shall be a depth of at least six inches of good, sound, green hemlock boards, free from rot, sap, wind shakes or other defects, one inch thick, and from eight to twelve inches wide, laid in close contact with each other and to break joints through their ends to be straight and their ends sawed off square, so as to form close joints, and prevent a smooth contact between the curbstone and the pavement.

Between the curbing on either side of said street and resting upon the flooring above specified shall be a paving of cedar blocks, which shall form a bed of fine gravel at least six inches, sawed from good, sound, live cedar posts, of from four to ten inches in diameter, and from eight to twelve inches wide, laid in close contact with each other and to break joints through their ends to be straight and their ends sawed off square, so as to form close joints, and prevent a smooth contact between the curbstone and the pavement.

During the progress of laying the paving, blocks of different diameters must be so arranged and placed with reference to each other, as to leave the smallest practical space between the blocks. Spaces approaching a square form must be avoided, and no sp. blocks of less than three inches in diameter will be allowed.

All spaces between the blocks are to be filled with screened gravel of a quality, size and screening satisfactory to the grading and paving committee. The same to be thoroughly tamped with proper tools until solid; and refilled and retamped until the spaces have been completely filled with firm and solid tamped gravel; the whole work to be done under the supervision and to the satisfaction of said grading and paving committee.

After the filling shall have been completed, the top surface of the paving shall be swept off with a coarse broom, and left uncovered until it has been inspected and accepted by the grading and paving committee. After such inspection and acceptance, the paving shall be covered with fine screened gravel to a depth of one inch.

PAVING.
